Makhzoumi Foundation

Impact Report 2015

Building the bridges for
COMMUNITY SUPPORT

For 18 years, Makhzoumi Foundation has been embracing the community's well-being ensuring that individuals and families are supported and valued. We made a difference in changing and improving the lives of others while opening doors for health services, managing the economic status of small entrepreneurs, educating and training learners, supporting displaced societies in need of relief, and bringing sustainable development for women, children, youth, and elderly. Watch the video to have a look at what we do.

Since 1997
2.5 million Services
660,000 persons outreached

By Numbers
Here is what we provided

600,000

Health Services

850,000

Relief Assistances

721,500

Social services

A few words on behalf of Makhzoumi Foundation team

This report marks the end of the year 2015 and the beginning of a new evolutionary period for Makhzoumi Foundation and its community.

Throughout 2015, the Foundation did not only add strategies and projects to its pre-existing programs and units, but it also implemented new missions, agreements and schemes to broaden civic and communal operations. All the improvements and the expansions within our organization are based upon the assessed needs of the community and our field experiences over the years.

Within Makhzoumi Foundation, the opportunity to support the vulnerable

does not happen from nowhere. We look around for it and if we don't find it, we create it.

Lebanon is unfortunately still indulged in a continuous humanitarian crisis. Since 2011, we are a major humanitarian actor and we consider ourselves responsible to support the refugees, the displaced families and the host communities on our territory. Year after year, the community is becoming increasingly demanding while the supply is scarce. By working in line with local and international partners, we are trying to fulfill the gaps in service provision. What we face is hard and complicated. But we are still going on.

The figures and numbers that we are presenting within this report show it all. Throughout the year 2015, we were sharing all our activities on our website, in social medias, in our monthly newsletter «*HIGHLIGHTS*» and during conferences and meetings.

Today we are presenting a cumulative that recapitulates what we did with the benefits and the consequences, hoping that 2015 was rewarding to every person who collaborated with us.

The attainment of our goals and all the accomplished delegations are owed to our partners and taskforce but mainly to our Founder, Mr. Fouad Makhzoumi, our President, Mrs. May Makhzoumi and Makhzoumi Foundation administrative team.

We hope that your year passed as well and productive as ours in community services and we wish you a prosperous upcoming 2016.

On behalf of Makhzoumi Foundation team

Samer El Safah
General Manager

300,000

Persons Served in 2015

Makhzoumi Foundation is an independent, not-for-profit Non-Governmental Organization that plays an important role in providing a wide range of community services and activities that have permanent and intensive impact in the philanthropic and humanitarian fields.

The Foundation was established upon the vision of its founder and major funding associate, Mr. Fouad Makhzoumi, and his desire to direct citizens toward self-sufficiency. It has been growing ever since, guided by an Executive Board of Directors and a specialized administrative team that operate according to international corporate standards.

OUR SERVICES

The Healthcare Program: provides highly accessible primary health services based on the Lebanese and Canadian Primary Care standards.

The Vocational Training Program: provides trainees with educational, technical and vocational skills promoting self-reliance.

The Microcredit Program: provides access to financial and non-financial services to entrepreneurs and employees with near minimum wage creating new job opportunities, fighting poverty and empowering women and youth

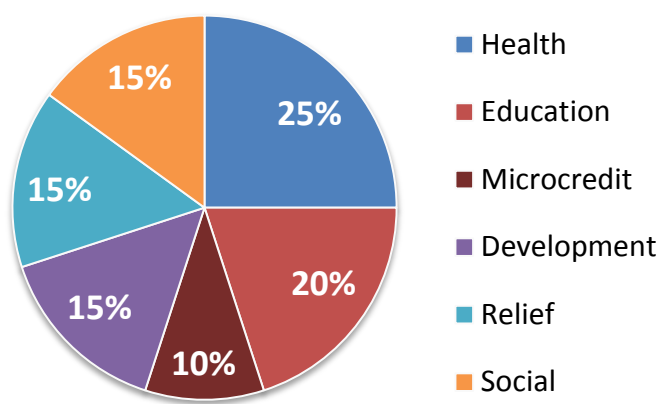

The Development Program: implements community projects to empower individuals and groups with the skills they need for sustainable development.

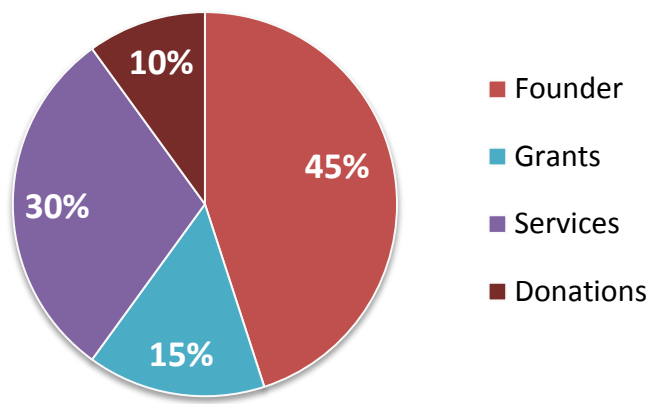

The Relief and Humanitarian Services Unit: provides needs to refugees, displaced people and vulnerable host communities aiming at achieving ultimate humanitarian assistance.
